DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on November 16, 2005 has been entered.

Preliminary Remarks

2. This Office action responds to the amendment and arguments filed by applicant on November 16, 2005, in reply to the previous Office action, mailed July 13, 2005.
3. The amendment of claims 1, 2, 4-11, 13, 14, 16, and 17 by applicant in the reply filed November 16, 2005 is hereby acknowledged.
4. The cancellation of claims 18-20 by applicant in the reply filed November 16, 2005 is hereby acknowledged.
5. The addition of claims 21 and 22 by applicant in the reply filed November 16, 2005 is hereby acknowledged.

Election/Restriction

6. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-13, drawn to a method of business or management comprising generic or non-electrical computing, classified in class 705, subclass 500.
 - II. Claims 20-27, drawn to a system for automated financial, business, or management practice comprising an arrangement for inventory management, classified in class 705, subclass 28.
7. The inventions are distinct, each from the other because of the following reasons:

Invention I is related to Invention II, as process and apparatus for its practice. The inventions are distinct if it can be shown that *either*: (1) the process as claimed can be practiced by another, materially different apparatus, or by hand, *or* (2) the apparatus as claimed can be used to practice another, materially different process. (MPEP § 806.05(e)). In this case, the process as claimed can be practiced by another, materially different apparatus, or by hand, such as by performing at least some of the recited method steps by hand.
8. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

9. A telephone call was placed to Mr. D. Kent Stier (Reg. No. 50,640), attorney for applicant, on January 12, 2006, to discuss an oral election to the above restriction requirement, but the call did not result in an election being made.

10. Applicant is advised that the reply to this requirement, to be complete, *must* include an election of the invention to be examined, even if the requirement be traversed (37 CFR 1.143).
